THREE RESERVOIRS BROKE.

Exciting Time in Shelton, Ct.—Houses Broken into by Cakes of Ice and Occupants Narrowly Escape.

IN THE ASOCIATED PRESS.—P.M. |

IDEIRBY (CL.) Feb. 22.—The break of three reservoirs in the town of Shelton early today caused damage estimated at between 155,000 and 1100,000, and there were several narrow escapes from death.

The torrent tore a great fully 110 feet long and 30 feet wide through Howe avenue. Logs and trees and huge cakes of ice were carried along, and crashed into several buildings.

The house of Waiter Nichols was struck by the flood. Nichols was away and his wife was awakened by the ice rashing against the door. A few moments later she escaped just before the water forced in the door and flooded the rooms. The family remained prisoners in the upper part of the house until the water received to the Senate: the Agricultural links are still in the House of Representatives. In order to conclude its work on the appropriations and will be reported during the week.

The Naval Bill, the Portification Bill and the General Deficiency Bill are still in the House of Representatives. In the House of Representatives. In order to conclude its work on the appropriation bills, and the General Deficiency Bill and order the conclude its work on the appropriation bills and transactives. In order to conclude its work on the appropriation bills, and the General Deficiency Bill and the General Deficiency Bill

strongly resisted by the Republican leaders.

The Philippine Currency Bill has been set for Tuesday. The suspension days which, under the rules, precede the expiration of each Congress, begin Wednesday, and by means of the parliamentary expedient of making motions under suspension of the rules, parliamentary knots can be cut and legislation expedited. The Fowler Currency Bill will continue to be the stop gap whenever other matters are not pressing, but there seems no prospects of its passage. There is an intimation, however, that it might serve a useful purpose in case the Aldrich Deposit Bill should come over from the Senate. It is said that the latter bill could be substituted for the former without going to committee, either by striking out all after the enacting clause of the Fowler bill, as through the operation of a special rule.

If neither of these courses was adopted, the bill would be referred to the Ways and Means Committee, which could report it forthwith, as it is well understood that a reference to the Committee on Banking and Currency would be equivalent to its death. The reference to the Ways and Means Committee, which could report it forthwith, as it is well understood that a reference to the Committee on Banking and Currency would be equivalent to its death. The reference to the Ways and Means Committee, which could report it for the season of the protein in the national banks, and to that extent is a revenue measure.

HOUSE PAYS TRIBUTES.

[BIT THE ASSOCIATED PIERSS—PM.]

WASHINGTON, Feb. 22.—The House held a session today to pay tributes to the memories of three deceased members, the late Representative Tongne of Oregon, the late Representative Tongne of Oregon, the late Representative Moody of North Carolina. Mr. Moody of Oregon presided in the absence of Speaker Henderson. The customary resolutions were adopted, and a number of members delivered eulories.

NAVAL CONSTRUCTION.

menths ago he directed that no further extension of time be permitted, except by his own personal order.

The chief constructor's report shows that there are seven causes for delay in naval work, namely, inadequate plans, changes in armor or armament, or design, delays in delivery of armor and ordinance, delays in government inspection, delays in getting structural steel, delays due to inadequate facilities and insufficient holifity in the constructor's staff and delays due to inadequate facilities and insufficient holifity in the constructor's staff and delays due to inadequate supply of skilled labor. All of these subjects are treated in defail in the report, and the point is made that after all, the apparent greater

speed in English ship yards is due to the fact that the vessels are delivered by the contractors in very incomplete condition to the government, which spends several years in many instances in equipping the ship for commission.

BERLIN, Peb. 22.—Exclusive Dispatch.] The letter of the Kaiser repudiating Prof. Delitzsch's theorie has caused an immense sensation in Germany. It looks as if the orthodox party, aided by the Empress, had influenced the Emperor undoubtedly felt that it would never do for the head of the Prussian state church to indorne a scientist who denies the theory of revelation. Prof. Delitzsch today said in regard to the Emperor's manifesto:

"Trom a scientific point of view. I am slad that my lecture made such an impression. I am glad that the important teachings of the church relating to the Oid Testament have been given us; among them, for instance, the theory that the covenant on Mount Sinal was the personal revelation of Ood to Moses.

AUSTIN (Tex.) Feb. 22.—(Exclusive Dispatch.) The attempt of ex-Gov. J. S. Hogg to interest British capital in the Beaumont oil field has failed. Suit has been begun in the United States Circuit Court by representatives of the Texas oil fields, limited, of London, Eng., against Hogg and associates for the recovery of 1900,000, alleged to have been deposited as part of the proposed purchase price of the oil wells.
Gov. Hogg spent goveral washs of last year in London, in an effort to interest capital in his oil efferprises. He succeeded in organising the Texas Oil Fields, Limited, and it was to have been incorporated under the laws of Texas, with a capital stock of 14,500,500, had matters gone along smoothly.

SACRAMENTO. FIFTIETH DAY OF SESSION.

Nearly Sixteen Hundred Bills Have Been Introduced - Measures in Governor's Hands.

(BY DIRECT WIRE TO THE TIMES.) first Direct wine to the times.]
SACRAMENTO, Feb. 22.—[Exclusive Dispatch.] Tomorrow is the fiftieth day of this session of the Legislature, and it will begin what promises to be the busiest week thus far. Having loafed for many days during the earlier weeks the members must now make up for that loss of time, and three sessions a day will be the rule in both houses. Most of the work will be strictly of a routine nature, but so much of it redo not want to work two weeks after

mains to be done that if the members do not want to work two weeks after their pay stops, they will have to put in every spare minute possible. Already both houses have adopted a rule limiting debate to two minutes per member, and no member may speak more than once upon any bill without the consent of the House.

Nine hundred bills have been introduced in the Assembly and 678 in the Senate, but a majority of them will either die in committee or fail to be reached on the files. Tomorrow is the last day for the introduction of bills without reference to a special committee, which will decide whether any bill shall be introduced, and to override an adverse report of this committee on any bill will require a two-thirds vote. The evening session tomorrow will be devoted to a joint session of the two houses in honor of Washington's birthday, and some of the most able orators in the Legislature will deliver addresses. The Governor will also speak.

SPECIAL FILE.

[BY THE ASSOCIATED PRESS-P.M.] SACRAMENTO, Feb. 22.—There is a great diversity of opinion among the members of the Legislature as to when the present session will be concluded, but the matter will probably be finally settled this week through the introduction of a resolution naming a definite time. In order to facilitate business and make, it possible to facilitate all urgent measures that have made their appearance on the files, it is probable that the date set for the consideration of the special file, consisting of bills bearing appropriations of \$5000 and over, will be taken up some day next week instead of March 1, the date originally chosen. This move is necessary on account of the progress of the Assembly, which is far ahead of the Senate with its work.

tion mer at the Chase Operanous and held a George Washington birthday celebration.

The principal business of the Congress, which will begin its session temorrow morning, is the election of officers for the coming two years and the authorization of plans for the building of Continental Hall. The election programme is complicated by the fact that Mrs. Cornella Cole Fairbanks, president-general at present, is ineligible for reflection because of an amendment adopted at the late Congress which prevents any Daughter from serving more than two successive terms on the National Board. An amendment is pending now which would make Mrs. Fairbanks eligible. Should this prevail by a two-thirds vote, Mrs. Fairbanks would be elected to succeed herself. With a free field, the rival candidates will be Mrs. Daniel Manning and Mrs. Donald Melean, both of New York.

They scorn such simple device to attain their object as the making of themselves unattractive in the eyes of the male sex. They stipulate in their first rule that all members must have attained the age of 17; must wear long skirts and dress their bair in a becoming manner. They also say: "Members are invited to render their appearance as attractive as possible, but they must be maidenly in their con-

The rules of the order compel members to have a wholesome contempt of love, to abhor marriage, and to display the society's badge at least one day a week. Nevertheless, "members are not debarred from conferring their friendship upon the opposite sex, but this friendship must be absolutely free of sentiment and everything appertaining to that very undesirable state of being."

"The beet-sugar industry is in better shape than it has ever been. This is largely due to the harmonious relations of various companies. We are satisfied that the cut-throat methods employed in the past have been eliminated, and that hereafter there will be no trade wars. The conflicts of the past did more to demoralize the industry and check its development than anything else."

At the end of her period of preparation she secured a small school. She put into it the conscientiousness she had given to her studies. The work was confining, the responsibility told upon her. By the end of the school year she was on the verge of a breakdown. A summer vacation only helped her to fight through the next year until the holidays. Then she gave up the work and went back to her country home with nervous prostration.

WEAK MEN.

I to sand to contemplate the unfortunate condition of so many men of our day and generation. At 20 they feel 50; at 60 they feel 50, and at 50 or 50, when they should be in the very prime of life, they are almost ready for the grave. The fire of youth has gone out, the fountain of vitality is exhausted. Premature old age. No matter what has brought it on, the ope thing for you to do is to get back the vin, vigor and the vivacity of youth. Don't lose your grip on life. There are many happy, golden years for you if you will only get belp. I can, and will, not only help you, but cure you to etay cured. Curing diseases and weaknesses of men has been my exclusive business for the past fifteen years, during which time I have lifted up enough fallen men to make an army. My freatment will restore to you what you have lost—your precious vigor. It stops all loss of vigor and gives back perfect and permanent power. It makes the blood pure and rich, the complexion clear, the cyes bright, the fissh firm, the murches and dispeis all despondence. Intellect, and dispeis all despondence, intellect, my treatment for weak men builds up the physical and mental man, and prepares him anew for the duties and gleasures of both married and single life.

ists in Men's Diseases Has Been

Honestly Earned by Our Uniform and Unequaled Success in Curing

To rightly understand and appreciate the various disorders that afflict men, the man who attempts to treat successfully must first prepare himself by a thorough Medical Education supplemented by Special Hospital Work. Having thes laid the foundation with the determination to give conscientious and thorough work to his chosen specialty, he is sure to succeed. It is just these conditions that has placed Dr. Harrison at the hand is his special work, "Diseases of Men." Few men in the whole country have met with the success that has uniformly attended Dr. Harrison's work in treating men. We do not claim that he is superior to all men in the country, but we do claim, and can substantiate that claim with actual proof, that Dr. Harrison has not his equal on the Pacific Coast or west of Chicago in the successful treating of diseases of men. His complete and radical cures are numbered by the thoisand, and these cured men are recommending us to their friends. It is this good, thorough work that is increasing our business as fast. It is an actual fact that our volume of business has doubled in the past year: and this increase has been brought to us by ABILITY, SKILL, and HONEST WORK. People are appreciating what it is to have men in their midst who are really and actually educated in their specialty; whose work is uniformly successful; whose word can always be relied on. Such men always gain pre-eminence. They deserve it. Pretenders are soon found out, and judged accordingly.

Nerve Weakness

Is but a name for exhausted nerve force, which may manifest itself in various ways. Nervous impairment is one of the most common departures from a normal condition of health. Various and contradicting symptoms are always in evidence with nerve weakness. The large majority of physicians understand little or aething regarding the subject—they treat one symptom today another tomorrow, possibly temporarily relieving each particular symptom, but in no sense has he discovered or by his remedies reached the real condition. Be has not understanding he cannot possibly bring about a normal condition. Cames of nerve weakness are many, usually however can be traced to surroundings, heredity, overwork and dissipation. Functional disorders are very common with men, as a complication of nerve exhaustion. These in sictional troubles if not all these suffering with weakness we give a cordial invitation to call and see us, get a good, plain tail regarding your case and a thorough examination, which costs you nothing.

WIND HERDS POSTS TO PORT.

AVALON, Peb. 22.—Early yesterday morning a telephone message from Empire brought the information that the fence posts lost by the breaking of a boom there the day previous were a long way out to sea, and headed direct for Long Beach. It looked as though most of them would be lost and go ashore on the mainland beaches, but a strong north wind sprang up about a strong north wind sprang up about a strong north wind sprang up about a size, and it just herded those posts up as a shepherd dog would a flock of theep, and started them direct for Avalon. At noon they arrived, and the wind died down leaving the posts about half a mile out, and scattered up toward Camp Whitter for a mile or so, and they are now being picked up with the prospect that very few will be lost.

Sig Loss of Planta.

Florist Gowans, who is in charge of the propagating gardens at Eastlake Park, which supply the ornamental plants for all the other city parks, stimates the loss by the recent cold spell and fronts at between 30,000 planta. He had on hand double the usual stock for this season, and be thinks the work of park adornment will be set back almost a full season by the loss. For eleven years Mr. Gowans has been engaged in the florists work here, and he says this was the most damaging freeze has ever known. At the park conservatory at present there is a fine display of asaleas and primroses, and the orchids are at their best.

BUSY SUNDAY FOR THIEVES.

Reaped Harvest.

Clothesline Footpads of Ivanhou Still at Large.

Hard Luck of Mrs. "Col." Black at the Theater-Small

For the first time in weeks Saturday

For the first time in weeks Saturday night was free from the stealthy work of the key-nipper burglar. Sunday, however, was a red-letter day for reports from victims of these clever thieves, and the total amount taken mounts into hundreds of dollars.

The bold dime-novel highwaymen who held up and robbed the four graders near Ivanhoe Saturday night, after tying their hands together with a clothesline, as reported in The Times, are still at large, and the probability is that they will not be caught, as a very vague description was furnished. This job, like others of its kind, was probably done by criminal hobos, who are known to the police, as "yegsmen." They are banded together for criminal purposes, but are devoid of the cleverness and the training that characterizes the burglar. However, a key-nipper burglar may adopt highway robbery for a time, if he thinks that it will be profitable and safe, and it is not impossible that there will be an epidemic of thuggery and midnight assaults, as there has been of burglaries and porch-climbing jobs.

BARBER'S LOSS.

While S. Shimamato, owner of the combined bath-house and barber shop at No. 125 South Main street, was absent from his place of business between 7 and 5 o'clock last night a burglar forced his way in by breaking a rear window light and stole \$175.00 from his money drawer. The burglary was reported at police headquarters at 10 o'clock, but a search for the perpetrator was unavailing.

PURSE SNATCHER ESCAPED.

One of the boldest purse-snatching jobs ever attempted in the city was

GRIST OF PETTY THEFTS.

Several petty theits were reported to the police yesterday, all evidently done by sanateurs. Mrs. F. D. Black, twife of "Col." Black, the poolroom magnate, had an unfortunate experience at the Orpheum Saturday night, in which she lost a purse containing \$35. As she was intently watching the stage the purse dropped from her hand to the floor, and she did not notice it. When the act was over she found that it had vanished, and she searched on the seat and the floor in vain. There was a young man occupying the seat next to her, and she asked him if he had seen it, but he had not, he said. Then the "kernel" went out and got a detective. The young man and his girl were shadowed after the show was over, to see if they would be prodigal with the money. Either innocence or wisdom protected the couple, though, for the money was not obtained. The wife of C. Laux, the druggist, had a similar experience at the same place and on the same night; but instead of her purse, she lost a gold watch.

The punishment should be made to fit the crime, and to fit it so tightly that there will not be the slightest chance for the clutch to slip its hold.

The congress comes high—some 5700,000,000, but the people do not halt at expense when they see that they are to get something for their money. It would be extraordinary, indeed, if some part of such a tremendous sum were not misappropriated, but that the cost in the main, will be worth all to toget which provided for national aid to road building. HICKEN-STEALING COON KILLED BY CITIZEN.

MYSTERY OF NIGHT RAIDS SOLVED BY DEATH OF "JUMBO."

Caught Lying Under Barn Floor and Dispatched With Shotgun in Hands of Charles W. List-Many Losers by His Destroying V.sits.

Caught in the act of robbing a hencaught in the act of robbing a henroost, an impfense coon known as
"Jumbo," was shot and killed by
Charles W. List, under the barn at the
rear of-No. 2507 South Flower street, at
2 o'clock yesterday morning.
The thieving coon died with his
mouth smeared with the blood and sur-

rounded by the feathers of his victims.

The killing solves a chicken mystery
of long standing, and there is no doubt
of "Jumbo's" guilt. For three months
the feathery tribes in the section
bounded by Washington, Adams, Main
and Figueroa streets have been subjected to disastrous night raids. Owners of fine poultry have found only
feathers and blood left of their precious
specim: s by the mysterious destroyer.
They have slept on their guins through
many nights and paid out considerable
sums for hen-roost detectives, all in
vain.

sums for hen-roost detectives, all in vain.

Among the victims of the marauder has been John M. Glass of No. 224
West Twenty-second street, whose flock has been robbed of fourteen fine birds, but the apprehension of the thief was too much for the doughty ex-Chief of Police. From Mrs. Margaret Hughes' roosts at the corner of Adams and Flower streets, three fowls disappeared during last week. Frank M. Kelsey, No. 2415 South Flower, contributed four fine hens Saturday night. Charles E. Rogers, No. 326 West Twentributed four fine hens Saturday night. Charles E. Rogers, No. 326 West Twentry-eighth street, has been the heaviest loser, having had twenty-four chickens taken during the three months. R. D. List of No. 2507 South Flower has lost eleven fowls, and it was at his residence that the chicken-slayer paid the penalty of death for his crimes.

Shortiv after midnight yesterday

paid the penalty of death for his crimes.
Shortly after midnight yesterday morning a commotion was heard in the List roosts. Charles W. List, the seventeen-year-old son, who is the crack shot of the Los Angeles Military Academy, suspected the causand prepared to wreak vengeance. Arming himself with a double-barreled shotgun he stole out to the barn and located the chicken-killing con lying very quietly under the barn floor. Two well-directed volleys were fired in upon him, and the shots attracted three policemen to the scene.

The coon was dragged out cead. He was found to be an old fellow of great size. He was afterward identified as "Jumbo," the coon that escaped from his cage in the Chutes Zoo over three months ago. "Jumbo" was the largest coon of the silver gray species ever seen hereabouts, having been brought to the Chutes from the Far North. He was considered a very valuable animal.

tioned a few matters for which he says he will fight.

"I want the pitcher taken off his pedestal, and the ground-keeper harved from playing the game," is the way he stated his position. "They have been ruising the pitcher's box every year lately until he is so high that the people in the grand stand can't see the rest of the infielders any more, and I want a law passed that will keep the pitcher's box even with the rest of the diamond.

"Then I am against the sewers' along the base line, too. some of the ground-keepers have been using their showels so hard and often that every bunt rolls from it, making the ground keeper's ability more important than that of the batter in making hits. If have my way, I will have all there ridges and tunnels removed and the base lines kept level, as they should be. They did not have the ridges on the lines nor any judges stand and pitchers' boxes when I was in the same, and I don't want any now."

Finally most of them arrived at "the willows." the place appointed for the willows. I the promised mean, but there was no luncs in sight. Nearly all the Los Angeles men became impatient and started o. To town, tired, disgusted and hungry, and took the first train for "tome.

After junch the only sport of the day was had, and it was interesting for half an hour. About fifty mounted men surrounded the hills which had not been covered in the morning, and when they closed in eight or ten coyotes were raised, and there were exciting chases, with lively shooting, but none were killed with the exception of a straggler that ran upon a rifleman in the valley. James Madison, head huntsman, was a striking performer in the chase, riding up a steephillside full tilt, and blasing away at a large coyote with a six-shooter at every jump. His shots, like the others, missed. This half hour was the redeeming feature of the day; and those who missed it do not care to discuss coyote drives, and it would be well for their friends to bring up other subjects today.

Citizens of Covina generally appear to deplore the lack of management of the effair, and the fact that a few persons used it as a means of gather-

Bowers, A. Morgan, M. J. Perrin, Nat R. Titus, together with A. F. Cornel, Master of Sliver Gate Lodge, and F. S. Banks. High Priest of the Royal Arch Chapter. At the services at the grave, Rev. Jon Damon, an old friend of the deceased, acted as chaplain. Crosthwaite was one of the pioners of this section. In the days when Gov. Pardee lived here he was most prominent in the list of county officials. The trouble arising out of the recent election contest over the office of County Burveyor, culminated yesterday afternoon in a fistic encounter. Archie Crowell, who claimed the office by virtue of election, and who has appealed from the decision giving the office to S. L. Ward, doday deputised C. E. Morey to take possession of the office, and not to allow Ward to enter. When Ward appeared, and was refused admittance, he retired and soon returned, accompanied by his attorney, Mr. Sloane. When they opened the door they were met by Morey, who, as the two entered, selsed Sloane. While Morey and Sloane were scuffling in the hall, Ward slipped into the room and locked the door. Sloane escaped to the Sheriff's office, while Morey spain entered the Surveyor's office by a window. It is said that in the argument which resulted inside, Sloane was worsted, as when he emerged he bore evidence of hard usage. It is understood that a warrant will be issued for the arrest of Morey.
